

FRIDAY.....FEBRUARY 19, 1876.

For President of the United States:
B. H. BRISTOW,
SUBJECT TO THE DECISION OF THE
REPUBLICAN NATIONAL CONVENTION

THE PROMISED LAND.

His name was Peter McKay. He has but just arrived from the Black Hills, and hastens to the sanctum of the Omaha *Bees* office, to pencil in glowing colors the beauties of the new promised land of gold. Of course Mr. McKay will return at once to the Hills where he will make a permanent home. He says that the country is the most beautiful he has ever seen—a perfect Garden of Eden—and that nothing can be more lovely than the pine walled parks, and the grand beauty of the forest-clad mountains which tower above the prairies of the valley. He says it would be a magnificent agricultural country, and he will take in with him a large quantity of seeds. There is, he says, no danger from want of food, for the miners can dig enough to buy what they want, and the country is teeming with game. A man can go one mile and a half from Hills City and kill a deer at any time. Provisions are now plenty and the supply is far in excess of the demand. Carpenters are more needed than anything else. Persons going in should have about \$500 in money or provisions, and a supply of coarse warm clothes, so as to be able to put up their log hut and open their claim without having to spend too much time in tenting and making coats from deer-hides. He says 50,000 men can make five dollars a day during the coming summer by working in the diggings. He says that crime is almost unknown, the people now in the Hills being of a better class than he ever saw congregated in a new country. We do not believe there is much danger of a rush from this State, notwithstanding the inducements set forth by this man McKay, whose name is not inscribed on the bright pages of his country's history, he being hitherto unknown to fame. The wilds and wilderness of Nevada offer much greater attraction to the bold explorer and prospector, and his reward will be far richer, than the famed Black Hills section will yield him. No! No! Old Nevada miners will hold to that plain explanation of an obscure proverb which tells them that a natural production of the feathered tribe, properly secured, is more than equivalent to a greater number in a comparative state of freedom. In other words "A bird in the hand is worth two in the bush."

THE consolidation of the Gold Hill group of mines has been nearly consummated and the following shares are said to be awarded to the different mines named. The whole number of shares is 500,000, divided as follows: Imperial, 251,070 shares—183½ feet; Empire-Mill, 114,745 shares—75 feet; Consolidated Gold Hill Quartz, 22,008 shares—34½ feet; Bowers, 12,820 shares—20 feet; Bacon, 41,665 shares—60 feet; Eclipse, 44,072 shares—70 feet. Total, 500,000 shares—460 feet.

The number of mining assessments delinquent during the month of February, as far as made public, is 24, amounting to \$884,250. The distribution of the mines assessed is as follows:

Location.	Claims.	Amount.
Nevada.....	17	\$816,000
California.....	6	62,000
Idaho.....	1	6,250

TOTAL.....24 \$884,250

Some month in 1875.....29 \$864,250

THE FOUR MILE RACE.—The great four mile running race to come off Tuesday, February 22d, is already becoming the general topic of interest. The weather promises to be fine and with the track in good condition, a most exciting contest may be anticipated.

RECOVERED.—Col. Fair, Superintendent of the bonanza mines, has so far recovered from his recent sickness as to be able to be about his work as usual.

WASHINGTON.

Lively and Entertaining Capital Gossip.

The following news from the National Capital, under a late date, is of particular interest these dull times:

CONTEMPLATED CABINET CHANGES.

A variety of rumors are afloat here to-night relative to contemplated changes in the Cabinet to occur within a very short time, but queries in the proper quarters fail to confirm any of the rumors in the least particular. However, prominent parties, known to be very intimate with the President, assert in the most positive manner that the Cabinet will be partially reorganized within thirty days.

GOSSIP ABOUT TREASURER NEW'S RESIGNATION.

Since the announcement last week by Treasurer New of his intended early resignation, the gossips have been busying themselves about the matter and many explanations of his course, other than that of business engagements, have been rumored. Mr. New, for his part, says that his occupancy of his position as Treasurer, has been an expensive sacrifice to him. His salary is only \$3,800 per annum, and he has already paid out \$3,000 to meet losses which occurred under his predecessor. This leaves him only \$800 salary, while his hotel bills are said to be \$600 a month.

MORE TALK THAN WORK.

Congress has been in session more than two months, and in that time over 1,500 bills have been offered in the House, while that body has passed thirty five, of which only four—two regular appropriation bills, one the Centennial bill, and another bill restoring the old postal rates of printed matter—are of general interest. There are seven bills, however, restoring rebels to the enjoyment of their forfeited political privileges.

PINCHBACK'S POOR PROSPECTS.

A Caucus of the Senate shows that Pinchback's Senatorial chance is slim. Eight Republicans are only required to vote with the Democrats to defeat him, and six of them are said to be secured already.

BLAINE'S NEXT MOVE.

Some of the friends of ex-Speaker Blaine say that he is preparing for another raid on the Democratic camp, and will begin operations in a few days. It is hinted that he intends to make Ku-Klux outrages the basis of his new attack.

CONKLING'S CHANCES.

New York Republicans now in Washington manipulating Presidential gossip and letter-writing in their own party's interest, declare that it has been at last arranged that Mr. Conkling shall have a united delegation from the State of New York, at the Cincinnati Convention. This being secured, they further declare that the delegation from New Jersey will throw their support in the same direction. There is no doubt of an active movement on the part of Mr. Conkling's friends in his interest, for the Presidency, which is branching outside of his own State.

A GOOD DAY FOR WIDOWS.

Last Thursday was a good day for widows in the House. It was shown that in the Fourth District of Tennessee the people there had bad luck in securing a representative in Congress. They elected one Kent, who died. Then they elected one White, and he, too, joined the angel throng, preferring heavenly joys to Congressional ones. Finally, a third deal resulted in securing a man whose health was strong enough to enable him to reach the poisonous air of the Democratic House. The widows of Kent and White were to-day given three month's pay, while the widow of Buffington, of Massachusetts, was treated to a like amount.

DEMOCRATS MAY CRY "WAR! WAR!" BUT THERE IS NO WAR.

It can be stated on the highest authority that no row has occurred between the President and Secretary Bristow, or between the President and any other member of the Cabinet.

THE NAME OF B. H. BRISTOW HAS BEEN BEING GROWING IN FAVOR AMONG THOSE REPUBLICANS WHOSE INTEREST DO NOT CONNECT THEM WITH THE WHITE HOUSE.

His chances may depend largely upon the issue of the Babcock trial; for it is currently reported that he has stated that Babcock's acquittal, especially if the acquittal, will insure Bristow's resignation and determined opposition to the Administration. His Kentucky birth and his long continued residence at the Confederate Cross-Roads will probably render him obnoxious to that large and influential element of the Republican press and party that bases its opinions solely upon geographical lines; but if outsiders may be permitted to express an opinion, he is the best, and perhaps the ablest man that his party has prominently named for the Chief Magistracy.—*Eureka Sentinel*.

LETTER FROM NEW YORK.

[Correspondence of the Journal.]

NEW YORK, Feb. 9th, 1876.

Pleasure-loving New Yorkers who take delight in masked ball, have been in great tribulation lately at the action of the police, who have raked up an old law that forbade masked balls or any assemblage of masked persons where a fee of admission was charged. This law was passed in 1828 after a shooting affray at such a ball and when the masked assassin escaped. For several years, however, this law has been a dead letter and there have been several shameful balls of this description, where the wildest and most disgraceful indecent scenes have taken place. Notable exceptions to these, however, have been the balls of the great German and Hebrew societies, who more especially felt aggrieved at the action of the police. The officers of these societies by hard work have succeeded in getting an amendment to the law and last night the first grand ball of the French society took place. It was a very fine affair but the trouble seemed to have cast a damper on the spirits of those present and it can hardly be called a success.

BARNUM, THE GREAT SHOWMAN,

is on deck again, and announces that next Summer he will take the road with a colossal show, which will throw all his previous efforts in the shade. He will have over six hundred animals and will require over eleven hundred persons to manipulate the various departments. Four trains, comprising about 120 cars will be used in transporting this caravan. His route will be mostly through the western country and possibly Yankton will have a call.

MOODY AND SANKEY

Will begin operations here about the first of next month and preparations for their meeting are being pushed forward with great rapidity and will doubtless be ready in time. The meetings will be held in the old Hippodrome, which was used last Summer as a concert garden, or rather such was the title given but in reality was nothing but a lager beer garden. It is very commodious, covering an entire block, and it is said to be capable of seating twenty thousand people. If the attendance is anything like what is anticipated this will be none too large. From a recent report of the

BOARD OF HEALTH,

The sanitary condition of the city is in a very different state than is generally supposed. The general idea has been that from the unseasonable weather we have had this Winter the death rate would be very much increased, but the report shows that there is less sickness than has been known for years. There are some few cases of small-pox, but the disease which has the largest number of victims is diphtheria, from which there were 656 deaths in eight weeks, or an average of 82 a week.

WALL STREET

Has had a little shaking up during the present week and quite a number of the "bulls" have been so tightly squeezed by the "bears" that they have had to succumb. About a dozen failures have taken place and some of the knowing ones say that the end is not reached yet. No sympathy is expressed for the victims as all honest business men feel that it would be better for the regular business of the country if the whole "street" should be cleaned out. The latest wrinkle of our heavy swells, and would be aristocrats, is the formation of a

FOUR-IN-HAND CLUB.

James Bennett, editor of the *Herald*, is the president, and the membership comprises a long list of the snobs of the city. The first requirement to membership is the ownership of a "drag," and the ability to handle the ribbons of four horses at once.

CAPT. BOYNTON,

The inventor of a new life-saving dress, and who accomplished the feat of swimming across the English channel last Summer, is now here and is giving some interesting aquatic exhibitions. He eats, drinks, reads, smokes and sports around in the water with apparently the utmost ease, and professes his ability to travel any distance in the water without fatigue.

QUILL.

The silver question is being agitated in Congress. What the result will be on this question in Congress is hard to determine, but if a bill is passed to redeem the fractional currency in silver a strike will be made in restoring public confidence on an early day for specie resumption. Coin trade dollars only for export, and the balance of fine silver will find its way into the market the same as any other product.

An assessment of \$1 per share has been levied by the Imperial Mining Company, delinquent on the 21st proximo.

TELEGRAPHIC MELANGE.

Summary of Important Telegrams.

Prospects of the Texas Pacific Bill, CHICAGO, Feb. 16.

A Times Washington special says to day the Committee on the Texas Pacific Railroad will take action on Scott's scheme, and form a careful canvass of the committee. There is no doubt that the committee will report favorably on the bill. The rumors to the effect that the committee will tie on the question being far from truth. There will be a majority of three, at least, of the thirteen members of the caucus as shown by the complexion of the caucus committee appointed yesterday. Of the nine members of the committee representing the House, five are inflationists and four nominally advocates of hard money. The five inflationists are in favor of the repeal of the Act of 1875, requiring the resumption of specie payments January 31, 1879, and doing nothing more. They believe in actual inflation they say, and if they are willing to forego any attempt to pass a positive inflation bill, the hard money Democrats ought to accede to them, and not attempt to force through any measure looking to actual resumption.

THE GREAT FOUR-MILE RACE.

SAN FRANCISCO, Feb. 16.

An examination of the horses to contest in the great four-mile race next Tuesday shows that all are not in as good condition as might be hoped. Rutherford, who was favorite in the pools previous to the late postponement, seems stiff in the shoulders and joints of the fore legs, gait laboring like that of a stage horse, but his trainer says he will open out when warmed up. Grindstone may be considered practically out of the race. He is as fat as though grass fed and only a show of training is kept up in his case. The other nags are in pretty good condition. Katie Pease is a trifle full in flesh, but will probably work it off before the day of the race. The track is now in good condition, and a good race may be anticipated, barring the above drawbacks.

LEGISLATIVE DEAD-HEADS.

SACRAMENTO, Feb. 16.

Governor Stanford, through E. Curtis, has invited the members of both Houses to take part in an excursion trip across the Sierra Nevada Mountains on Saturday. A special train will leave Sacramento at 1 o'clock p. m. In the evening a ball will be given at the Summit. On Sunday the train will proceed to the State line, affording an opportunity to visit Donner Lake, and returning to Sacramento by Sunday evening.

GENERAL FREMONT TO TELL SOME TALES.

General Fremont is expected to testify before the Judiciary Committee to-day about the lobby operations connected with securing the Texas Pacific charter. He has refreshed his memory by the inspection of the books at New York, and it is understood to have an interesting list of names of persons who received bribes.

THE CHIEF JUSTICESHIP OF UTAH.

The Senate Judiciary Committee have decided adversely on the appointment of ex-Representative White of Alabama, for United States Judge of Utah Territory. This unfavorable action was on account of Mr. White's complicity in the fraudulent Parkman-Brooks cotton claim.

WASHINGTON, Feb. 16.

The President to-day signed the Centennial bill with a quill pen made from the wing of an American eagle.

PIOCHE MINING REVIEW.

In the Pioche Record of the 13th we find this review:

For the week commencing Sunday, the 6th inst., and ending yesterday, there has been shipped by Wells, Fargo & Co.'s express, bullion to the amount of \$51,281, which shows that Pioche is increasing the bullion shipments and coming up to the old style. The pump on the Raymond & Ely mine has continued to work to the satisfaction of every one, the shaft being kept dry by about 17 hours working in 24, whilst sinking is steadily continued. We may at any time expect to record developments that will be of immense importance to Pioche, for as soon as the Raymond & Ely make a strike it will tend to place money in the other mines of Pioche to develop their resources. Taking the mining outlook throughout we think we can congratulate ourselves on being in a better condition financially than we have for two years past.

ACCEPTED.—John W. Dwinelle Esq., has received his commission as Special Counsel for the Government to prosecute the charges of frauds on the revenue, and has sent forward his acceptance of the office by taking the usual qualifications. Now we shall soon see where the Bristow lightning will strike in San Francisco.

MISCELLANEOUS.

J. C. HAGEMAN.

Wholesale and Retail Dealer in

GROCERIES,
HARDWARE, QUEENSWARE, TINWARE, ETC.
NEW LOCATION, THE MASONIC BUILDING,

GREENBACKS.

Buying 89 Selling 90
Gold in New York yesterday 112 1/2

WIDE AWAKE MERCHANT.—Our friend Charlie A. Simmons, he of the poultry, fish and fruit store, on Virginia street, is one of our most wide-awake dealers in that line. He is always up with the times. If there is anything new in the market it can generally be found there. He seldom misses a trick that way. His store is the repository of almost everything. If you don't see what you want, ask for it, and presto change, Simmons has it under your nose. His stock of fruit, fish, poultry, eggs, preserves, candies, nuts, teas, spices, lemons, etc., etc., etc., etc., etc., etc., is fresh as new mown hay, and his prices are in keeping with the times. Be sure and give him a call when you want anything.

WOOLEN MILL.—Another woollen mill has been put into operation; this time in Vallejo, where blankets, flannels and cloths are manufactured. The sheep-raisers of Solano county have now an additional incentive for enlarging and continuing their business. Somebody will make a great mistake if they do not put up a woollen mill at Reno. It is the best opening we know of, and would undoubtedly prove more remunerative than an investment in the bonanza stocks. Our advantages are superior to any on the Coast.

ARTER THE "VAGS."—Constable Barlow commenced a vigorous raid on the "vags" yesterday, and proposes to make his crusade of local renown. The two arrested yesterday were Cy Lovett and the irrepressible John Doe. We may be sure the scales of justice, has held by Judge Gilson, will weigh them down in the darkest cell of our county jail. Let the good work go on say all of our citizens.

JOS MURPHY.—Joe Murphy has dropped around again. He is now playing in Virginia City, but is expected to give a performance in Reno next Monday evening. Joe will be warmly welcomed.

IN SACRAMENTO.—Jewett Adams, our Lieutenant Governor, is in Sacramento, gathering parliamentary knowledge.

A dispatch dated Sacramento, Feb. 16 says: In the Assembly, on motion of Clarken, a special committee of three was appointed to wait upon Lieutenant-Governor Adams of Nevada, who is in Sacramento, and tender to him the privileges and courtesies in the gift of the Assembly. The Speaker appointed as said committee, Clarken, McConnell and Harding.

DISINCORPORATION.—The proposition to disincorporate the Con. Poe, met with favor among the stockholders, and a majority went to Peavine yesterday and voted in the affirmative.

LOOKING WELL.—The Con. Poe mine is looking first rate. So say some of the stockholders who visited the lower levels yesterday. The till was not running, having broken a shaft. The prospects are bright for this deserving company.

THE BOARD OF TRADE meeting this evening will be unusually interesting. An able and exhaustive report from the Committee on County Affairs will be the bone of contention. All should be present and take part in the discussion.

A LARGE stock of black and colored silks; also Irish Poplins, at Jacob Prescott's.

NINE cars of emigrants went West yesterday.

Money Demand of the Mines.

A business that requires a dollar to make a dollar is not generally thought to be very lucrative. But in the case of mining industries there is an exception to the rule. Every dollar spent in developing a dollar's worth of bullion not only contributes to the welfare of those directly engaged in its production, but adds two dollars to the material wealth of the world, where only one dollar existed before; and is therefore a paying business. Hence, the money contributed from month to month, in the form of assessments, it is well invested, if we look at the ultimate results. Some of the mines now appealing for aid will, in the course of time, not only be self supporting, but will pay back a much larger sum than is now required to keep them in working order. There are others, however, that have never paid anything, and probably never will. If human foresight could single out what will be non-productive, they would of course be abandoned. In the absence of such knowledge, we must work the good with the bad. Even under these circumstances, statistics prove that mining is a source of wealth. The risks are greater than in other pursuits, and so are the profits, when they assume that form. Taken as a whole, there is a margin in favor of continuing the business. During the month of January twenty-four claims called in installments on their capital stock, varying from 10c to \$5 per share. Most of these assessments have already become delinquent, and the remainder will take that course within the next two weeks.

—S. F. Bulletin.

IN TURKEY the editors of newspapers are held to a strict accountability for the truthfulness of every line which they print. If the editor cannot prove the correctness of what he publishes, his paper is suspended for three months. This is a new edict of the Sultan, and was promulgated in December. With such a law in force in the United States, we think there would be many newspaper suspensions.

THE manufacture of limburger cheese is quite an important industry in the vicinity of Maine City, Mich. The principal markets for the commodity are those of Cincinnati and Detroit. The number of pounds shipped the past season was 121,208. How pleasant to know that Maine City is thousands of miles away.

It is proposed to increase the number of shares in the Segregated California from 10,000 to 30,000, with a capital of \$3,000,000.

THERE were 1,668 fires in London during 1875, a decrease of 44, as compared with the previous year. In twenty-six instances lives were lost.

SPECIAL NOTICES.

NOTICE TO ALL MEMBERS OF THE RENO LIBRARY AND SOCIAL CLUB.—At the last regular meeting of the above named Club the Library Committee engaged Mr. Jas. E. Stanaway to act in the capacity of Librarian. Mr. Stanaway has full charge of all books, periodicals, etc., connected with the Library, and is also authorized by the Secretary to collect all fees and dues indebted to the Club, for which he will give his receipt therefore. Mr. Stanaway can be found at the Rooms at all reasonable hours.

Feb. 11-12, 1876.
